10th Congress
Sustainability Management for Industries

Success through Sustainable Energy and Resource Management

The 10th congress "Sustainability Management for Industries" (SMI) is dedicated to the topic "Success through Sustainable Energy and Resource Management" focussing on the opportunities and challenges associated with sustainable energy transformation for companies in a wide range of industries. The declared aim is to optimize individual energy and resource requirements as best as possible, taking into account ecological, economic and social criteria. Actors from business and science are called upon to take advantage of these opportunities and challenges and to implement innovative and economically viable solutions.

As an interdisciplinary discussion platform, the SMI congress series promotes the exchange of knowledge on the topics of sustainability and energy transformation among scientists and practitioners. Accordingly, previous participants have been able to benefit from innovative and implementation-oriented ideas. The SMI congress aims at executives of future-oriented organizations as well as employees and scientists from the fields of energy, environmental, innovation and sustainability management.

We cordially invite you to our CALL FOR PAPERS on the following topics!

Deadline 30 April 2023

- Assessment of Energy and Material Flows •
- Energy Management in Times of Energy Transformation •

Organization and Inquiries

Dr. Gerald Feichtinger | gerald.feichtinger@unileoben.ac.at | +43 (0) 3842 402 6012

Submissions

We kindly request that you send us the title of your conference paper, a short abstract (approx. 150 words / a template for the abstract is available on the homepage) and your contact address. The abstract should provide an overview of the content, methodology and results. Contributions received by us will be evaluated according to their relevance and timeliness in relation to the mentioned topics. Please send your contributions to gerald.feichtinger@unileoben.ac.at.

Conference Proceedings and Participation for Speakers

Your contributions (8-12 pages) will be published in a conference volume. After acceptance of your contribution, we will send you the corresponding format template. Conference participation including the conference proceedings is free of charge for speakers. However, we kindly ask for your understanding that we cannot cover travel or accommodation costs.

Timeline

30 April	Deadline for submission of paper title and abstract
31 May	Feedback on acceptance of the contribution
16 July	Submission of the manuscripts / contributions
12 October	Conference date & Publication of conference proceedings
